A MIRACLE BEGINS

Discover what the energy of Dominus Cervix can mean in your life

A healthy diet, sufficient exercise, the right vitamins and relaxing at the right moments: we do whatever it takes to feel better and more invigorated in our usually busy lives. But sometimes that is not enough and there are other factors that influence our vitality, such as polluted air, negative terrestrial rays, manipulated food, negative thoughts, etc.

For centuries crystals have been known for their purifying powers and wide spectrum of applications, such as balancing your energy or 'spiritually' cleaning your home. While you may not consider crystals to be an obvious solution, they are surprising effective. This is all the more so with the glass crystal orbs of Dominus Cervix which are energized, which is to say they are charged with a special, powerful pure energy. This pure energy cancels negative energy and creates clean life energy, resulting in balance and harmony in your environment. You will feel fitter and more invigorated in a natural way.

"A miracle begins" with Dominus Cervix. Welcome!

John Haan

Introduction to Dominus Cervix Energy

After having worked for a period as a medium, psychic and healer, a new calling beckoned John Haan: introducing as many people as possible to the healing powers that he accessed through multi-dimensional channels and was able to translate into crystal energy products.

*John Haan
Founder Dominus Cervix*

Where does the unique energy of Dominus Cervix come from?

Via multi-dimensional channels, John received information and messages, including the name of the crystal orbs and information about building an energy machine for placing the energy in the crystal. John was also informed that the machine had to be inaugurated on Easter Sunday.

Building the machine

John Haan: "I received all manner of texts and mathematical formulas. The eventual result was a wooden machine in the form of a pyramid. In the middle of the pyramid was a kind of spiral made of 80 meters of gold thread. It measured a value of nearly 1000 trillion on the Bovis scale. You could call this an astronomically high love energy that purifies everything". The 'machine' captures energies, which are beamed to the earth from the cosmos, and anchors this powerful energy forever in the handmade crystal orbs.

The Dominus Cervix energy products

The Dominus Cervix energy has been placed in a number of products for in and around your house and body. The best-known of these products are the Dominus Cervix crystal orbs, the orbs. These are available in various sizes. The larger the crystal orb, the more powerful the energy. There is also Dominus Cervix jewellery such as neck chains and earrings to be worn on the body and there is also now a CD.

Handmade 100%-leadfree crystal glass orbs

The crystal glass products of Dominus Cervix are handmade in the Czech Republic, a country famous for producing the best glass in the world so you can be assured that the glass products of Dominus Cervix are of the highest quality. Dominus Cervix products contain no lead and their structure is exceptional clarity. Since Dominus Cervix products contain no lead, the energy in these products will be fully absorbed by the structure of the glass and then dispersed fully. Lead is often added to glass to make the glass clear. However, lead is a metal that counteracts and disrupts energy rays. Dominus Cervix guarantees the highest quality lead-free glass and all Dominus Cervix products are supplied with a certificate of authentic. Dominus Cervix calls its products crystal glass orbs as the glass is so pure with nothing added.

How energetica works

Energetica are products made of special glass that has been energized with pure light. These products radiate an endless quantity of cosmic life energy (according to the Bovis scale). Everything within the range of this light field is brought into a state of harmony and vibrates at a higher resonance. Dominus Cervix products literally create a light field of purity and harmony up to a radius of 60 meters or more. This light field remains as long as the orb remains in place. This energy lasts forever and never leaves the glass orbs. The Dominus Cervix energy transforms and neutralizes anything that is not in a state of harmony within the light field. This does not just apply to water veins and earth rays, but also negative emotions and thoughts and other negative energies. Moreover the larger the orb, the higher the resonance and more powerful its effect.

Intelligent energy

Dominus Cervix is an intelligent energy. This means that the Dominus Cervix energies can link up, creating a network. This network can be curative for people, their immediate environment and – on a larger scale – the earth itself. The products of Dominus Cervix create light which is able to alleviate physical, mental and emotional complaints.
